

Investigation 2.3 – Researching Local Knowledge (Field Trip Day 3)

Investigation:

Interview with members of local community who have knowledge of ice and subsistence activities, Richard Glenn and Harry Brower, as well as wild life biologist, Craig George, about impact on wildlife and subsistence hunting.

Objectives:

Upon completion of this activity, students will:

- Understand the interdependence between living things and their environment.
- Understand that a small change in a portion of the environment may effect the entire environment.
- Acquire cultural knowledge through active participation and meaningful interaction with elders.

Methods:

This session will be a 1 hour long audio conference from 10:00 am to 11:00 am on the 5th of April.

Background: (Have available as a transparency, a handout, in student journal or online.)

- What is the Arctic?
- What are the characteristics of the Arctic environment?
- Why Study the Arctic?
- How do we study and predict global climate change? (Local Knowledge)
- What are some possible consequences of climate change?

Materials:

Speaker phone.

Procedure:

1) CONFERENCE CALL INSTRUCTIONS:

In the U.S. and Canada:

You will need to call 1-800-315-6338 about 5 minutes prior to the starting time. Enter the code for your teleconference: 272842# (spells ARCTIC on the dial pad).

When a new person joins the call everyone on line will hear a beep.

Problems?

Call the ARCUS office (1-907/474-1600) and we will provide assistance or call the number again to reconnect.

2) Have speaking students ready with their questions. When your school is prompted to ask a question have student speak clearly into the phone. Remember to use the mute button when not speaking.

3) Other student can be taking notes and filling in a field journal entry.

Assessment/Closing Activity:

Have students share notes, impressions or feelings about what they heard during the audioconference. Gauge their level of understanding and answer any other student questions. To close the session, brainstorm questions for Monday's audioconference in the Cold Lab at UAF and email those to Patrick at lovely@mosquitonet.com so that he can prepare for tomorrow's audio conference.
