

## Bowhead Whale Studies and Related Documents

Compiled by Dr. Tom Albert, North Slope Borough Department of Wildlife Management, November 1998

This listing of 252 references consists primarily of documents relating to censusing spring migrating bowhead whales, evaluating population related data, revising the aboriginal whaling management scheme of the International Whaling Commission, and the basic biology of the bowhead whale. Most of such documents in the references listing have resulted from work by North Slope Borough scientists and/or scientists supported (via funding and/or data) wholly or in part by Borough efforts. This is not meant to be an exhaustive listing of bowhead whale related references. The list was provided by Dr. Tom Albert and undoubtedly will be added to periodically. No entries were edited or deleted, although some are from other than Barrow, and in some cases may not be considered open literature. All entries have been peer reviewed.

- Abdelbaki, Y., W. Henk, J. Haldiman, T. Albert, R. Henry and D. Duffield. 1984. Macroanatomy of the reniculus of the bowhead whale, *Balaena mysticetus*. *Anatomical Record* 208: 481-490.
