

# ILIMMARFIK - A CENTRE WITH VISIONS AND SYNERGY

- The place where knowledge is produced
- The place where knowledge is built up
- The place where thoughts can take flight

## WHY?

- to create strong professional environments
- to create synergy - through flexibility and optimal exploitation of resources
- to collect knowledge - interdisciplinary collaborative research
- to develop knowledge-based education
- to create an international centre of knowledge of importance to Greenland
- to disseminate knowledge to contribute to a dynamic societal development towards self-governance
- to contribute to language competency and democracy
- to create a national and international forum for research and exchange of knowledge especially about Greenland - in general about the Arctic
