Seabird Youth Network

Partnership:

- Pribilof School District
- Aleut Community of St. Paul Island, a federally recognized Tribe
- St. George Traditional Council, a federally recognized Tribe
- City of St. Paul
- Alaska Maritime National Wildlife Refuge
- Scientific community

Aim:

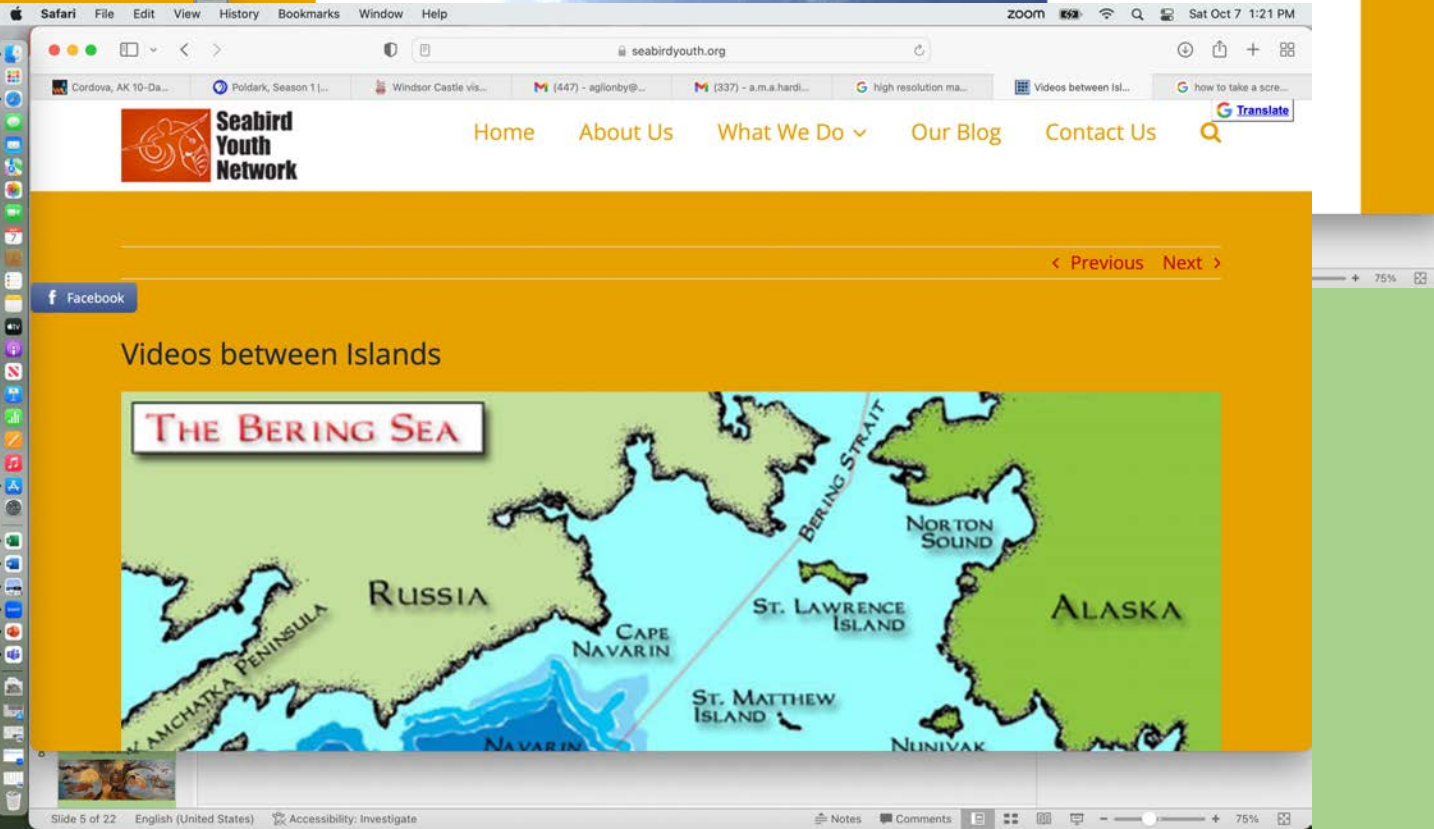

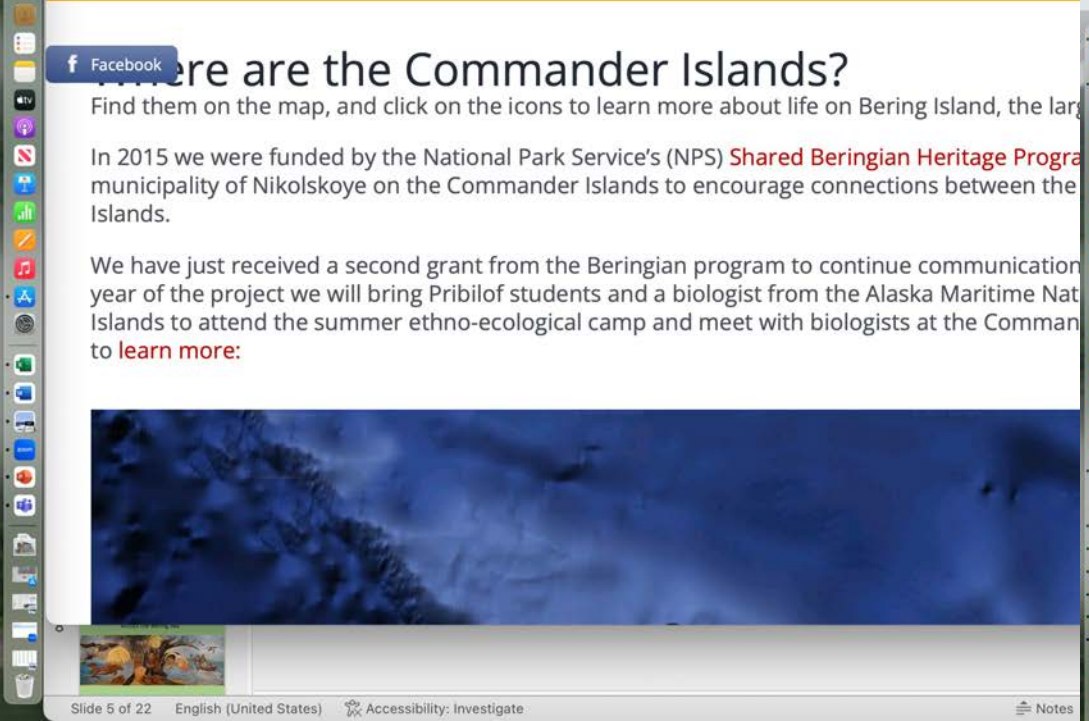

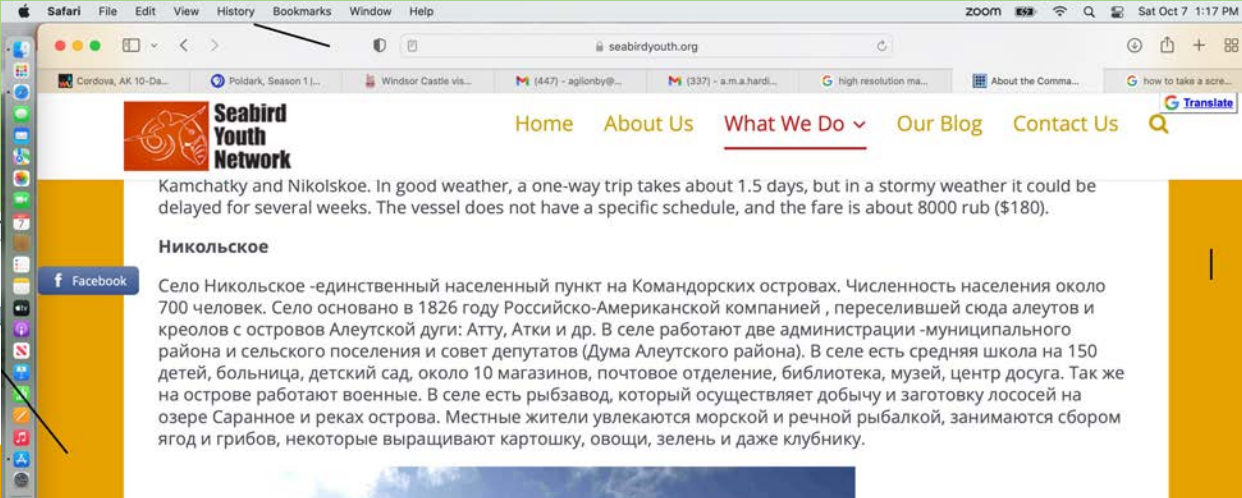

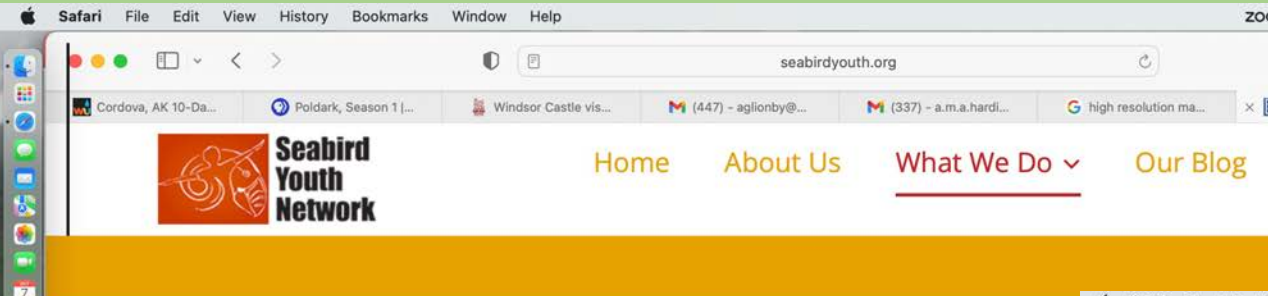

The Seabird Youth Network was designed in 2012 to support and encourage community awareness of the global importance of the local breeding seabird populations.

- Strong historical and cultural links between the people living on the Commander Islands and Pribilof Islands
- Similarities with wildlife
- Two NPS Beringia grants since 2016
- Aim to help reestablish connections and build new relationships between youth and wildlife biologists in both island groups

Морские птицы

Seabird Youth Network 2017

Shared activities and curriculum

Тонкоклювая кайра.
Я не выю гнезд!
Я откладываю яйца на голых скальных навесах.

Серокрылая чайка.
Я выю гнезда на плоских участках на вершине скал.

Ипатка.
Я откладываю яйца в глубине скальных расщелин.

Тихоокеанский чистик.
Я строю гнезда в трещинах и провалах поближе к воде.

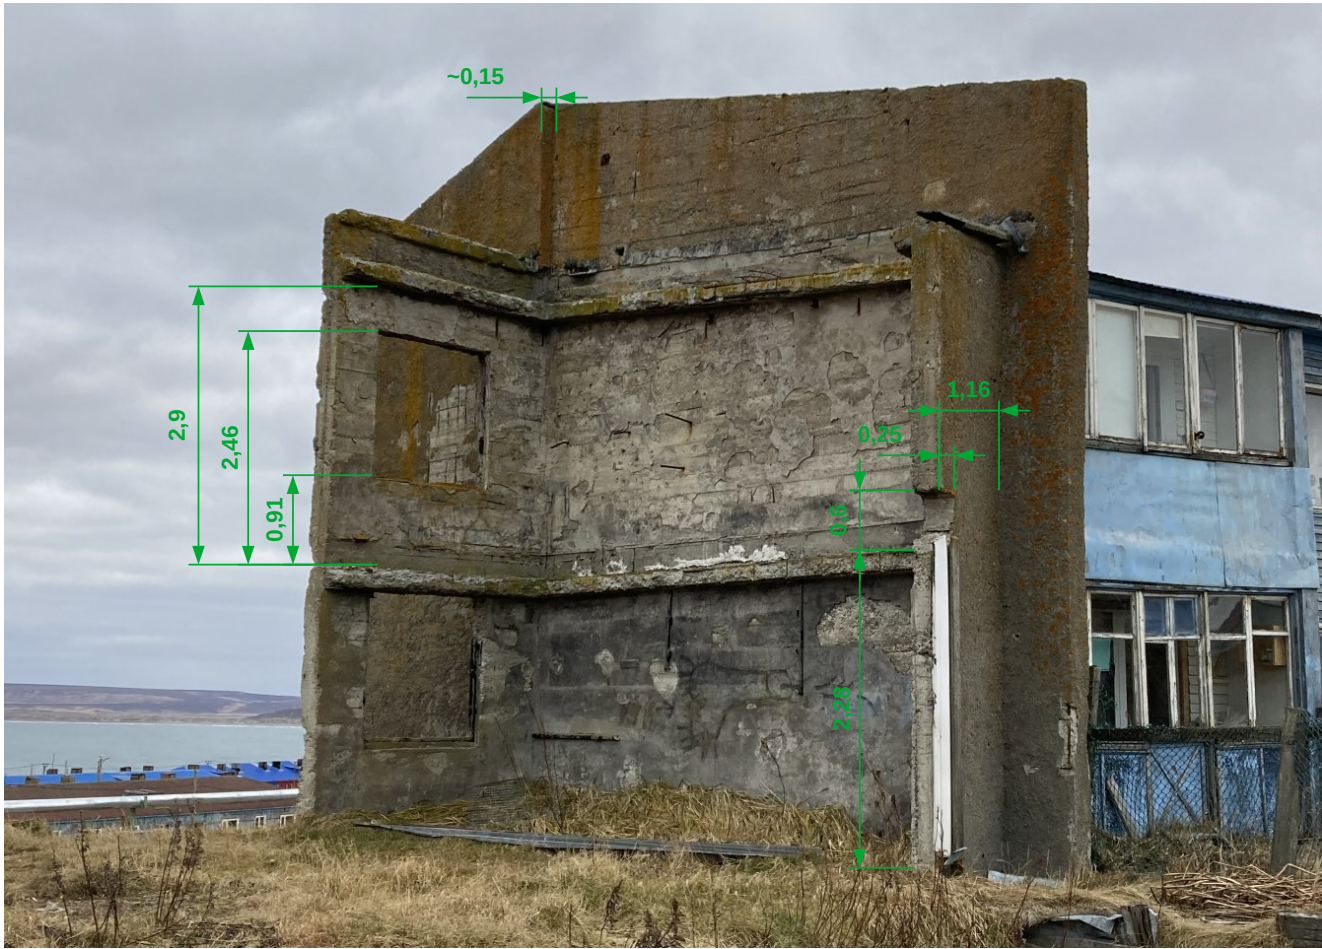

Красноногая моевка.
Я строю свои маленькие гнездышки из грязи и травы в срединной части скалистых обрывов.

Топорок.
Я рою норы около вершины скал.

Конюга-крошка.
Мои гнезда – на камнях у подножия скал.

**Морские Птицы
Командорских островов**

У каждой птицы есть любимые места гнездовья.
Найди описание гнезда для каждой из этих птиц.

“Across the Bering Sea”

Cultural sharing

One thing I like about living here at St. Paul Island is that everyone knows each other. Another thing I like about living here is the culture and the stories that come with it. Something I dislike about living here is the slow internet. I also dislike the bad weather.

ЛЮБЛЮ, ЕЩЕ У МЕНЯ ЕСТЬ ЛЮБИМЫЙ ХУДОЖНИК
АВАГАДОВ. А У ТЕБЯ ОН ЕСТЬ?)
ТАКЖЕ МОЯ ЛЮБИМАЯ ПТИЦА КАНАРЕЙКА И ИВОЛ-
ГА (А ВОТ ФЛАМИНГО Я БОЮСЬ, ЯМНЕ НЕ ЗНАЮ ПОЧЕ-
МУ).

НІЗУ ТВОЕГО ПИСЬМА

✓ Best regard, MiLena. ✓

Acknowledgements

Commander Islands Huge thanks to Natalia Fomina and Olga Belonovich for all their time and dedication to this project. We are very grateful to the FEROP team, Sergey Fomin, Julia Avdeenko, Vera Belobrova, Mikhail Oprishko, and the Aleut region administration for their time and support.

Many thanks to Anastasia Barsukova at the Commander Islands Biosphere Reserve, and Глеб Глебов (Gleb Glebov), Лера Скокова (Lera Skokova), Саша Бортникова (Sasha Bortnikova), Таня Миронова (Tanya Mironova), Надя Миронова (Nadya Mironova), Соня Гальченко (Sonya Galchenko), София Дмитренко (Sophia Dmitrienko), Эля Савичева (Allya Savicheva), Камилла Петрова (Kamilla Petrova).

Pribilof Islands *Pribilof Islands Camp Leaders, Team Members, Collaborators, and Community Helpers:* Tonia Kushin, Ram Papish, Kendra Bush (USFWS), Alexis Will (WWF/UAF). Jessica Bartman (PSD); Michael Baldwin (Superintendent, PSD); Zee Melovidov; Ashley Kushin; Zoe Lekanof; Bay Rose Kauffman; Jenya Anichenki (NPS); Mark Merculief; Kristen Gorman (UAF); Karin Holser; Peter Pearsall, Patrick Baker and Emily Herthe (the Aleut community of St. Paul Island Tribal Government, ACSPI), Veronica Padula (Seattle Aquarium); Bruce Lyon (UC Santa Cruz); Priscilla Wohl (NORTAC); Heather Renner and Matt Rustand (both AMNWR); Reina Galvan, Tucker Grigsby, Ricky Robbins, Jonah Benningfield, and Michael Rickershauser (all AMNWR biotechs): Priscilla Wohl (NORTAC); TDX tour guides Luis Gles and Mariah Hyriewich; Carol Randall; Darlene and Rodney Lekanof, and Chris Byrd.

The Pribilof Island camps were made possible by the successful working partnership between the Alaska Maritime National Wildlife Refuge (AMNWR), the Aleut Community of St. Paul Island Tribal government, the Pribilof School District, Tanadgusix Corporation (TDX), APICDA (*Aleutian Pribilof Island Community Development Association*), and the wider scientific community. Organization of activities was conducted via email and conference calls prior to camp. Thank you to the Pribilof School District for their crucial in-kind support and use of facilities (including the science room for St. Paul Camp activities), NOAA and TDX for staff housing on St. Paul, and the Aleutian Housing Association for housing on St. George Island. Many thanks to TDX for running a station during the St. Paul Island field trip, ACSPI the Pribilof School District and AMNWR for van use, and the USFWS for support in numerous other areas including biotech time and support. Priscilla Wohl (NORTAC) ensured a smooth implementation of the project through grant management.

Pribilof camps were funded by AMNWR, the National Parks Service, Beringia Program, the Aleut Community of St. Paul Island Tribal Government, and APICDA.
