

Society benefits by connecting Arctic science across countries, disciplines, sectors & more.

- Funds and supports scientific meetings, workshops, and events
- Provides independent scientific advice and communications
- Is an active Observer to the Arctic Council
- Supports FAIR access to Arctic data through the Arctic Data Committee
- Co-sponsors the Sustaining Arctic Observing Networks
- Initiates, coordinates, and promotes scientific activities
- Promotes and involves the next generation of scientists working in the Arctic
- Convenes the annual Arctic Science Summit Week

Action Groups:
 Current - Bylaws & Indigenous Involvement
 Recent - Geosci., Industry, Policy

Instruments to support science development:
 Assessments, Science Planning, Supporting Data & Observations, and Regional Coordination

Leadership & Secretariat

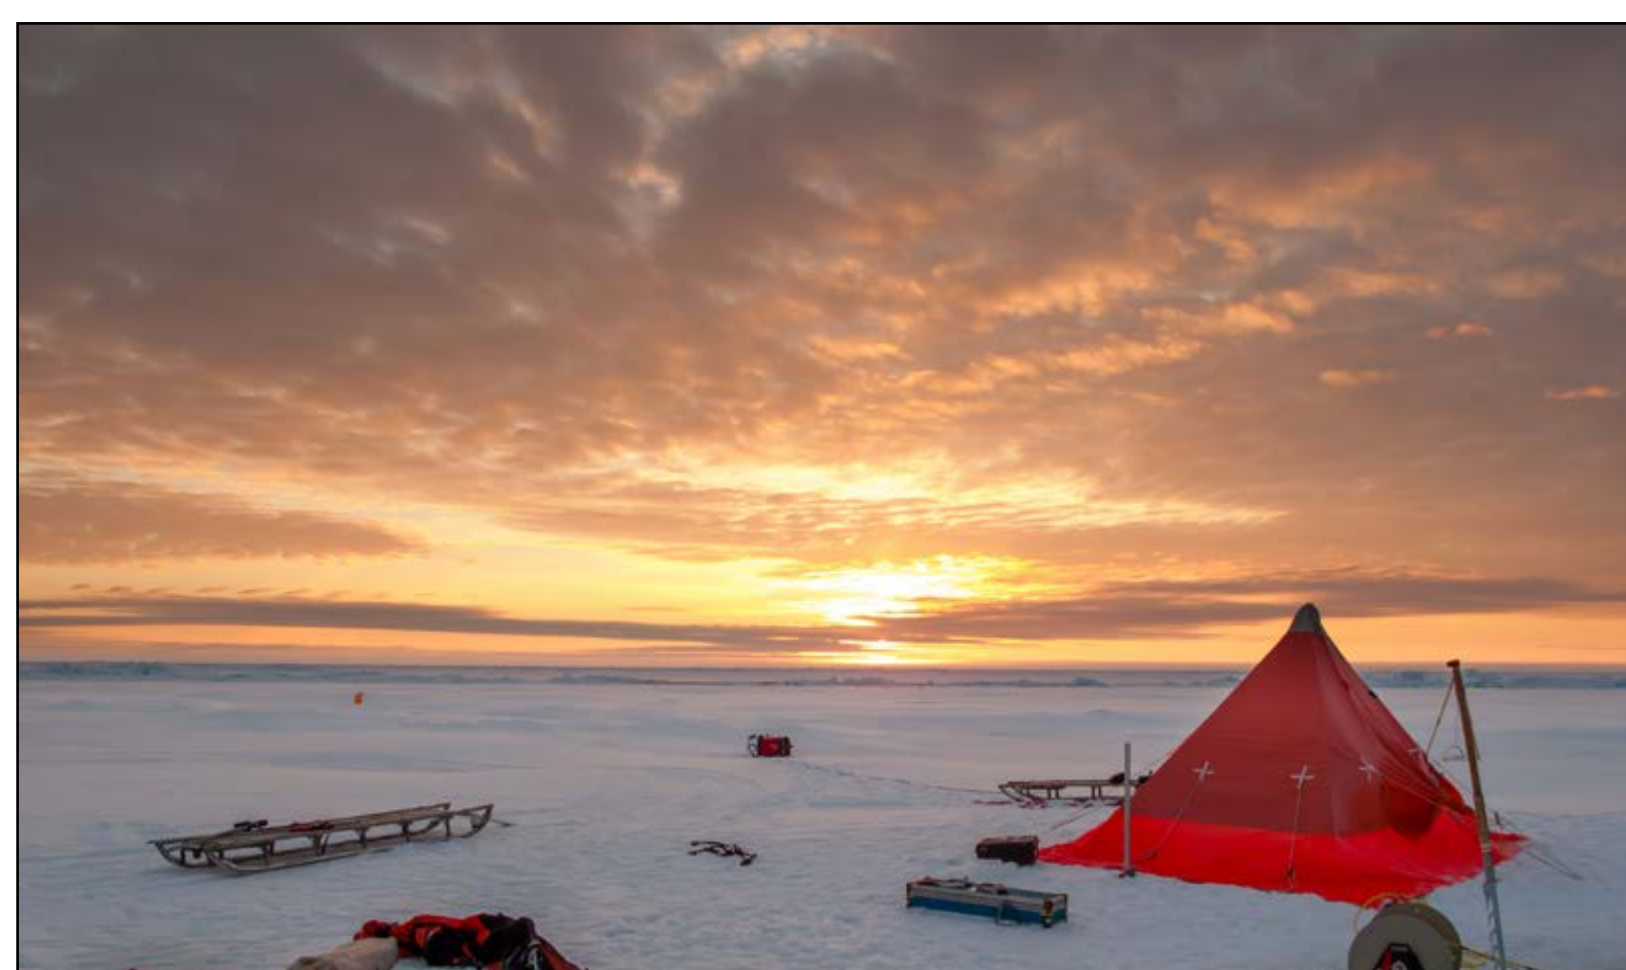

Scientific Working Groups:
 Atmosphere, Cryosphere, Marine, Social & Human, & Terrestrial and **IASC Fellows Program**
