

Sustainable Tourism and Expedition Science:

Ships as platform to collect valuable polar data, support local communities and increase awareness

HX | Hurtigruten Expeditions

Verena Meraldi, Emily Baxter, Christina Hess, Tudor Morgan

Introduction

The HX Science & Education Program:

- Immersive blended educational onboard program
- Partnered with world-leading institutions to assist their scientific studies whilst sharing their knowledge and experience with our guests
- Citizen Science projects run on all our voyages

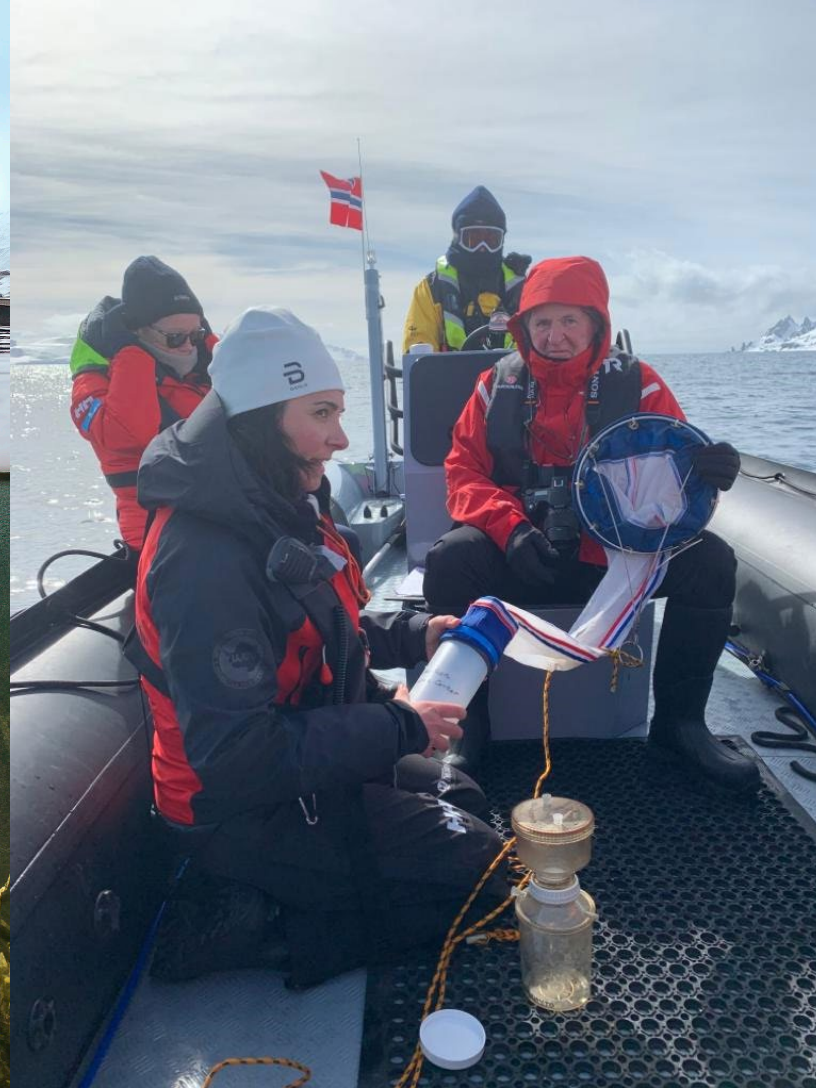

5 ships operating in the Arctic (Svalbard and Norway, Iceland, Greenland, Arctic Canada, NWP, Alaska)

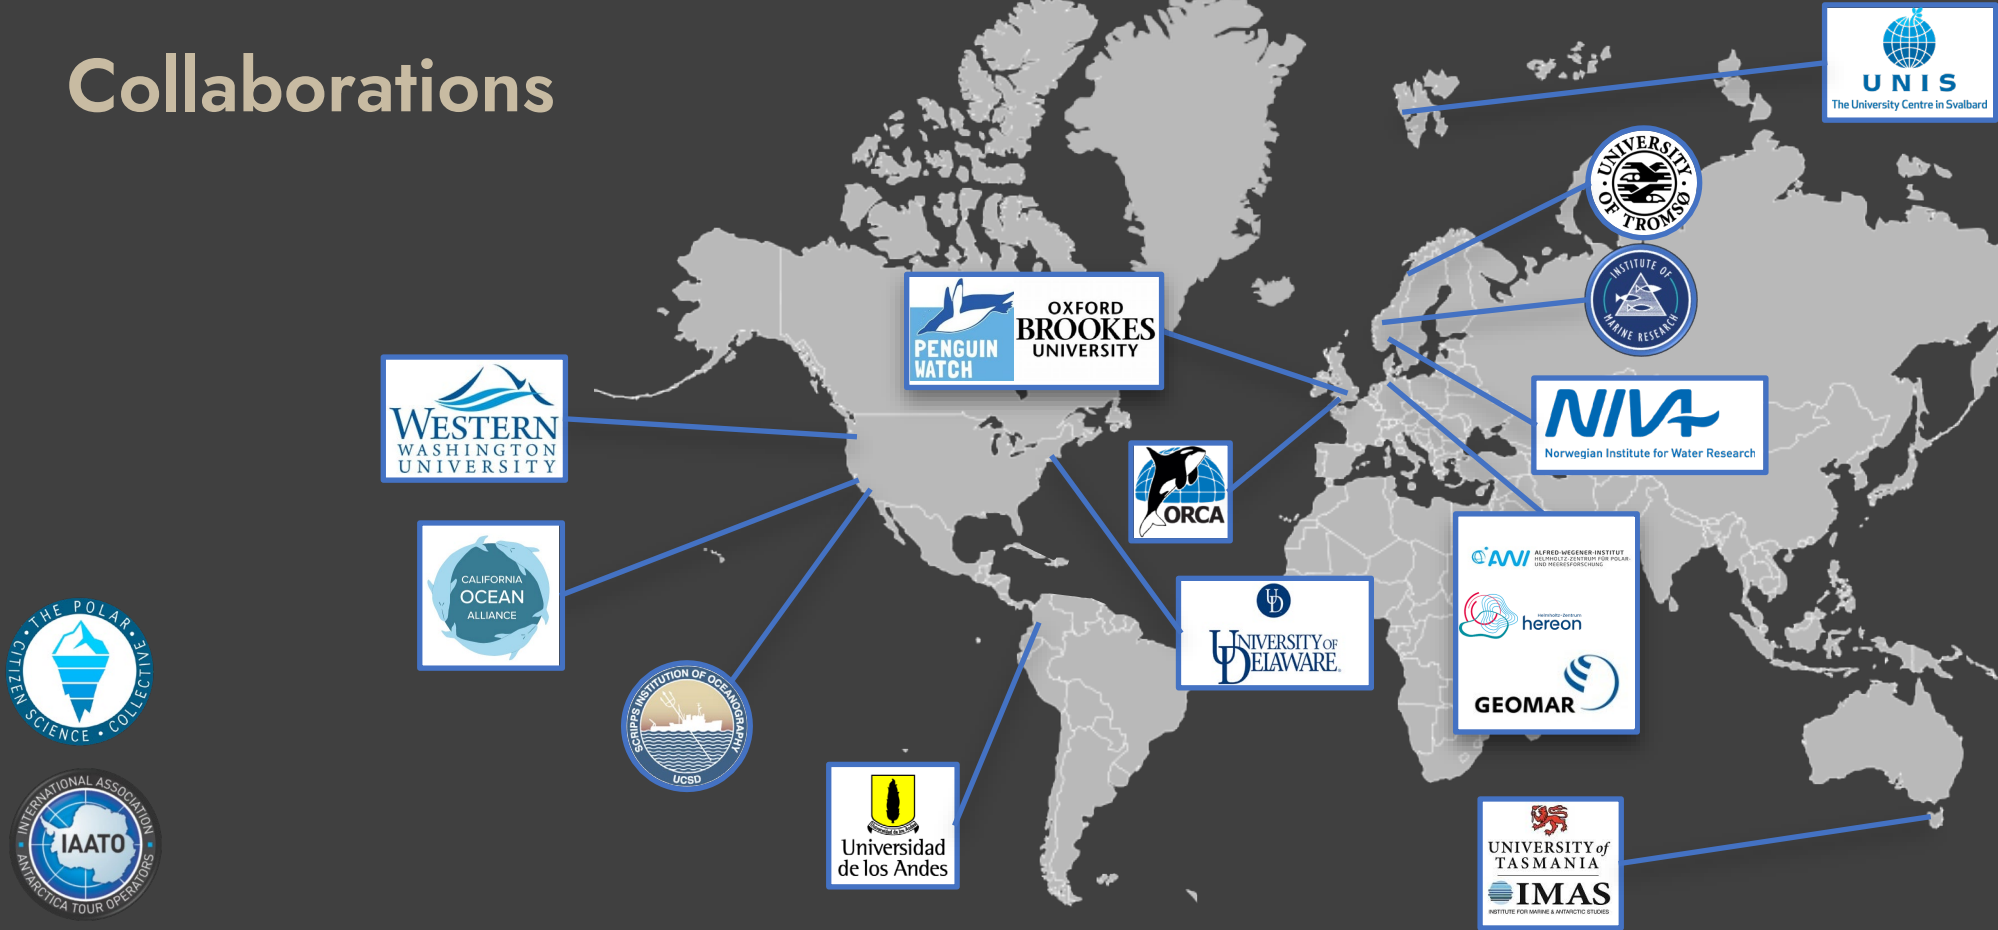

Onboard lectures and activities

Science boat and guest participation

Collaborations

Association of Arctic Expedition Cruise Operators **AECO!**

Citizen Science

Worldwide projects:

Happywhale

ORCA Whale & Dolphin Sightings

Globe Cloud Observer

Great Eggcase Hunt

Secchi Disk

Bird Observations

iNaturalist

FjordPhyto
Antarctic Seals

SG Big Seaweed Search

Atlantic Puffin

Icelandic Orca

Aurorasaurus

Seabird and Marine Mammal surveys

eBird Seabird surveys
Antarctic Site Inventory

PolarTag

Snow Algae

Cruise#Science

Guests and Citizen Science

A photograph of two whales swimming in deep blue water. The whale in the foreground is larger and has a mottled pattern on its side. The whale in the background is smaller and appears to be a calf. The water is clear and blue, with some light rays visible.
