

# ARCUS EARLY CAREER CONFERENCE FUNDING AWARD FALL 2022 CALL FOR APPLICATIONS

---

The Arctic Research Consortium of the US (ARCUS) Early Career Conference Funding Award supports US-based, early career researchers and students to participate in meetings and events relevant to Arctic research, since 2020. Awards will support registration fees, session/abstract submission costs, travel, and other relevant expenses related to **in-person conference attendance** for one US-based conference or event scheduled to take place during the period of 15 October 2022 – 1 April 2023. Funding for these awards is made possible through the National Science Foundation’s Arctic Sciences Section (PLR #1928794). This award also aims to specifically increase participation of early career, underrepresented minorities (Black, Indigenous, and People of Color; BIPOC) in Arctic research. Preference will be given to:

1. BIPOC applicants;
2. New applicants to the ARCUS Early Career Conference Funding Award (previous awardees are eligible, however); and
3. Applicants who are new to Arctic research and/or have never had the opportunity to attend an Arctic-themed conference or meeting. This award is for conference attendance and participation—submitting an abstract will be optional. Prior experience in Arctic research is not required. In the event of COVID-19 related travel complications, ARCUS will work with each awardee individually to accommodate necessary schedule or travel changes.

**Applications Due by 5:00 p.m. Alaska Time, Friday, 16 September 2022**

## Qualifications and Requirements

- Applicants should be early-career, defined for this award as a student (undergraduate or graduate) or within six years of terminal degree
- US-based (US citizenship not required)
- Intended conference must be held in the US, have Arctic-relevant sessions/themes (of any discipline), and occur before 1 April 2023
- Eligible expenses include airfare, per diem, lodging, conference registration, abstract/session submission fees, and other relevant expenses upon approval, which will be either paid directly or reimbursed by ARCUS
- Awardees will complete a brief follow-up survey about their experience
